

# Uploading using Safari

If your uploads are failing or your browser is quitting please change Safari to run in 32 bit mode or use Firefox.

1. Quit Safari
2. Go to your Applications folder.
3. Select Safari > File > Get Info or select Safari and hold the command key and press I
4. In the General turn down click on the Open in 32-bit mode check box.
5. Close the window and restart Safari.
